

# PERSONAL INVITATION

## PHYSICAL FINAL EVENT

October 6th  
Green Planet Pesse  
15:00 - 21:00

Co-financed by the European Union  
Connecting Europe Facility

Co-financed by the Connecting Europe  
Facility of the European Union

# FINAL OF AN AMAZING PROJECT

The TSO2020 project will be successfully concluded by means of a physical closing debate at multifuel station Green Planet. A representative of the Ministry of Infrastructure and Water Management, Tjisse Stelpstra, deputy of the province of Drenthe, Fleur Gräper deputy of the province of Groningen, alderman Werner ten Kate and all TSO2020 partners will participate in this final debate. It will present all relevant outcomes of the project and it provide an outlook into the political perspectives and position the TSO2020 project as an accelerator for green Hydrogen developments in the Northern Netherlands and beyond.

The final debate will be followed by the spectacular official opening of the Green Planet hydrogen filling station. At the end of this; celebratory drinks and walking dinner with live music.

After all the restrictions of Covid-19, we would like to celebrate this milestone together with you, taking into account the Covid-19 regulations. We look forward to seeing you!

Ministry of I&W, Gasunie, TenneT, T.U. Delft, EASE, Green Planet and New Energy Coalition.

TSO2020 is the largest Action approved in the first Synergy call of the EU Connecting Europe Facility. It demonstrates the technical and commercial viability of power-to-hydrogen solutions and studies their replicability in other parts of Europe. TSO2020 analyses synergies between power storage solutions and alternative transport infrastructure needs, identifying new market opportunities and offering a valuable support for the energy transition.
